Because organizations must innovate to stay alive in today's highly competitive marketplace, organizations need employees who can channel their creativity and innovation toward organizational challenges and goals. This certificate program will first help you become re-acquainted with your own stores of creativity and innovation. Next, you are given a set of tools that allow you to leverage your creativity to identify and solve organizational problems. One activity asks you how you might look at a problem from a different angle to produce a more creative result; others walk you through the process of using analogies or replacement techniques to invent creative solutions to problems.
