# GENERAL ACCOUNTING WEBCOURSE

Course #: C1000WC

STARTING JANUARY 27, 2020 FOR TEN SESSIONS

6:00—8:00 PM

## course description

This course provides exactly the right balance between conceptual understanding and technical application and analysis of accounting issues.

General Accounting is designed to ensure students' success, provide a strong real-world emphasis, integrate performance measurement, and emphasize technology.

The course teaches students the information needed to create and understand financial statements such as trial balances, balance sheets and income statements. It focuses on how to measure business transactions, business income, and the fine points of financial reporting and analysis. The course explores internal controls, short-term liquid assets, current liabilities and the time value of money, and much more.
