Course #: H1061LV2

STARTING MARCH 10, 2020 FOR TWO SESSIONS

course description

Everything on my project list is due yesterday; I just don't know where to start!"

How many times have you thought this same thing?

The demand for productivity is greater than ever before. Deadlines are tight, resources are limited, technology is complex, and often times employees have the added challenge of reporting to more than one manager. It's no surprise this pressure can lead to increased conflict and overwhelming feelings of confusion. That is, until you are equipped with the skills needed to manage your workload effectively.

Start with *Balancing Priorities: How to Successfully Manage Tasks, Deadlines, and Expectations*. This program shows individuals – step by step – how to ditch the time-wasters and improve performance through better goal setting, task delegation, organization, and the proper use of technology.
