Any student approaching completion of an award is requested to confirm this with the CFTEA office. Completion deadline is May 31st annually. Additions and updates to CFTEA awards are ongoing. The [CFTEA](#) website will always have the most current award and course date information. Contact CFTEA with questions regarding updates and changes to awards.
Certificate, Certification and Diploma
Requirements, General Information, Updates and Changes

The financial services industry encompasses a variety of career possibilities. CFTEA offers its own diplomas, certificates and certifications as well as certificates of the American Bankers Association and MindEdge. The combined series of programs offers classes of education and/or training in most of the career fields available in financial services.

Many CFTEA awards are the first step in a successful career path for bank employees and strive to provide our students with the competencies and educational background that will prepare them for the financial services career of their choice. Many meet the pre-certification education requirements that qualify a candidate to sit for the certification exam through the Institute of Certified Bankers (ICB) in their chosen field.

A brief description and worksheet for each award offered by CFTEA is available online under Academics within Certificate, Certification or Diploma areas of our website: www.cftea.org. General Information as well as updates and changes are listed below.

AMERICAN BANKERS ASSOCIATION: The American Bankers Association (ABA) is a continuing education curriculum for the financial services industry. Many of CFTEA’s classes are products of the American Bankers Association. ABA provides banking specific educational programs and products and is CFTEA’s first option in many banking-related classes. Any class or training program provided solely by ABA will show an ABA logo beside the program name on each diploma/certificate worksheet. The Center for Financial Training and Education Alliance is a Local ABA Training Provider.

MINDEDGE: MindEdge's mission is to improve the way the world learns. Since its founding by Harvard and MIT educators in 1998, they have served some three million learners. MindEdge has been involved in online education and training since 1998, creating courses targeted to adult learners. MindEdge draws upon its experience in developing effective online courses that will engage adult learners, relying content partners for specific content and expertise in the topic area. Utilizing their internal video, graphic designers, instructional designers, and project managers, MindEdge creates high-quality online courses that you own.

CFTEA maintains records of classes and a transcript for each CFTEA student under the student’s name and month and day of birth. If at any time, the month and day of birth were not provided when receiving an enrollment a new record may be established and records for this student may not be complete in one file. For this and other reasons, please do not assume the CFTEA office will automatically know when a student has completed all of the requirements for a diploma, certification or certificate.

Any student approaching completion of an award is requested to confirm this with the CFTEA office. Completion deadline is May 31st annually. Additions and updates to CFTEA awards are ongoing. The CFTEA website will always have the most current award and course date information. Contact CFTEA with questions regarding updates and changes to awards.
DIPLOMA AND CERTIFICATE UPDATES AND CHANGES

A mission of the Center for Financial Training and Education Alliance is to meet the educational needs of the financial services institutions it serves, and to offer its students the educational tools they may use to succeed in their careers. As educational requirements and necessary knowledge and expertise in the banking industry change, so do the requirements of our diplomas and certificates. As classes become obsolete or revised into new programs our diplomas and certificates must be revised also. As banking is an ever-evolving industry, CFTEA must keep current with its training and educational tools.

If you are currently working on a diploma or certificate program, please review the program’s worksheet to be sure you know the most recent requirements of the program. If there are changes to the worksheet that will affect your completion of the program, please contact the CFTEA office for a review of your completed work and the changes that will affect you. CFTEA is committed to assisting you in the completion of your desired program and we will work with you to the extent that we are able to comply with the program requirements. Each student in this situation will be treated individually and fairly and given every avenue within reason to complete his/her diploma or certificate program. Some notes to keep in mind:

- Normally, a diploma or certificate program that is less than one-half completed will require the completion of any and all new requirements. (Exceptions for valid reasons may be made upon approval of the CFTEA Executive Director.)

- A diploma or certificate that is not completed within eighteen months after the new diploma or certificate requirements have been announced will need to be completed under the new program requirements. (Exceptions for valid reasons may be made upon approval of the CFTEA Executive Director.)

- Any student approaching completion of an award is requested to confirm with CFTEA office. Completion deadline is May 31st annually. Additions and updates to CFTEA awards are ongoing. The CFTEA website will always have the most current award information. Contact CFTEA with questions regarding updates and changes to awards.

CFTEA DIPLOMA AND CERTIFICATE REQUIREMENTS and GENERAL INFORMATION

While you are reviewing the diplomas and certificates please pay close attention to the requirements. Each program has its own unique structure. Some information to keep in mind:

- If your goal is to achieve a certificate sanctioned by ABA, all of the programs with an ABA logo on the top of the page require the completion of only ABA classes, with the exception of Verbal and Written Communication. CFTEA will award the same diploma/certificate with the use of classes and programs from CFTEA.

- Many ABA certificates may be completed as one self-paced bundled online program.

- Up to 50% of the required classes for the CFTEA diplomas may be transfer classes from an accredited college or university. Local programs and in-house programs may also be considered. Please see descriptions of transfers, local programs and in-house programs below.

GRADES: All classes used toward a diploma or certificate must be completed with a passing grade. A minimum grade point average of “C” must be earned in order for the diploma to be awarded.

CREDITS: CFTEA diplomas are no longer awarded according to number of credits earned. All diplomas and certificates are awarded according to the classes required.
Any student approaching completion of an award is requested to confirm this with the CFTEA office. Completion deadline is May 31st annually. Additions and updates to CFTEA awards are ongoing. The CFTEA website will always have the most current award and course date information. Contact CFTEA with questions regarding updates and changes to awards.

TRANSFERS: A Transfer is the use of a class from another educational institution to satisfy a class requirement of a CFTEA diploma or certificate. All transfers must be approved by the CFTEA office. Please contact the CFTEA office before beginning the transfer process to go over the process before any money is invested by the student or bank. In order to review a class for transfer, an official transcript from the educational institution showing the class to be reviewed must be sent to the CFTEA office along with a course description of the class from the semester it was taken. Transfers will only be accepted for business or banking classes and only classes with a grade of “C” or better will be accepted for transfer. (Should the class be a pass/fail program only classes evidencing a Passing grade will be reviewed for transfer.) Transcripts are reviewed at a cost of $90.00 per transcript. You may print the Recordkeeping Form at WWW.CFTEA.ORG to once you have begun the process by reaching out to the CFTEA office.

LOCAL PROGRAM REVIEW: Several organizations other than educational institutions provide training programs that may be used as substitutions for some CFTEA requirements. CFTEA will review for transfer any programs that can be evidenced by a certificate of completion, course description, qualifications of the instructor and length of time of the training. Transfer credit fees may apply.

IN-HOUSE PROGRAMS: Many financial institutions provide in-house training using their employees as their trainers. CFTEA will review for transfer or substitution any programs that can be evidenced by a letter from the financial institution detailing the description of the program, qualifications of the instructor and length of time of the training. Transfer credit fees may apply.

CLASS TITLES: Titles of the classes offered by CFTEA may occasionally be slightly changed, and some classes of similar titles may be used as substitutions for other classes of the same topic. Please contact the CFTEA office if in doubt as to whether a class with a slightly different title may be used to satisfy the class requirement.

GENERIC CLASS TITLES: Some generic titles are used on several diplomas and certificates. For instance:

ACCOUNTING: The requirements of an “Accounting” class may be satisfied by a General Accounting, Financial Accounting, Basic Accounting, or a college or university accounting class that covers financial statements and other topics similar to CFTEA’s accounting classes. (See transfer credit section above.)

COMMUNICATION SKILLS: Many college and in-house classes may satisfy the verbal communication skills and written communication skills requirements. Both verbal and written communication skills requirements may be satisfied with an approved class that covers both, or the classes may be taken and completed individually.

WRITTEN COMMUNICATION and VERBAL COMMUNICATION: For the purposes of CFTEA Diplomas, the Written Communication and Verbal Communication requirements refer to a class of 1 credit or more. Please check with the CFTEA office before you take either class to be certain of its credit value.

CFTEA FORMAL/OFFICIAL TRANSCRIPTS: A Formal CFTEA Transcript indicating classes and awards completed by a student may be requested at any time by submitting a Recordkeeping Form with an accompanying payment of $10.00.

CFTEA INFORMAL/UNOFFICIAL TRANSCRIPTS: An Informal CFTEA Transcript indicating classes and awards completed by a student can be requested in writing (an email message is satisfactory) at any time with no fee. Requests should be emailed to the CFTEA Office.

GRADE REPORTS: A grade report for a completed class may be requested by a student IN WRITING (an email message is satisfactory) at any time. There is no fee for a grade report of a single class; however, the request will be honored only after CFTEA has received official documentation of the final grade for the class.
Suggested Educational Career and Development Paths through CFTEA

Employees are more engaged with an organization that supports education. They are highly motivated about their future when they have a clear understanding of themselves and how their career could develop. Supporting employees in making well-informed choices about industry topics can lead them to have a more optimistic outlook on life, sense of purpose and greater level of contribution that they make to their organization and community. There are economic and social benefits when employees are supported to make effective and educated transitions within their careers.

- Are you a long time employee looking for a place to start your education?
- Are you new to your financial institution or organization? Looking for additional options?

Contact the CFTEA office to discuss additional educational career paths.

Educational career paths are suggestions to support employees and managers in development opportunities focused in their field. Click on any of the interactive career paths below for guidance with direct links to job-specific certificates, certifications and diplomas.

Agile project management practices have become the standard for software development projects. More recently, Agile has grown beyond software projects as more and more companies adopt Agile concepts and methodologies. Individuals who have a solid understanding of Agile have a distinct advantage in today’s changing project management atmosphere.

The courses included in this certificate program will provide managers the basic foundation they need to become competent Agile practitioners. The program introduces the learner to the basic methodologies, practices, and key concepts of Agile and enables the learner to explore, through case studies, many of the common challenges of working on an Agile team.

This online certificate introduces learners to Agile methods of project management. Beginning with an introduction to the core philosophy of Agile and the basic structure of an Agile project, the following modules address specific challenges that may be encountered by teams using Agile, best practices for integrating Agile methods into Waterfall environments, and the principles of Scrum, one of several specialized Agile methods. The self-paced course offers an assortment of interactive exercises, videos, selected readings, case studies, and self-assessments that engage students and provide opportunities to practice their project management skills in an Agile context.

**Audience**
The ACAMS AML Foundations e-learning course was developed for professionals new to AML compliance and those whose responsibilities require a firm understanding of what goes into detecting, preventing, and reporting money laundering and financial crimes.

The course is written and presented by subject matter experts working around the world. It pulls examples from many countries and is globally appropriate. The lessons and examples are relevant to any industry. A primary focus is "financial institutions," including banks, credit unions, asset managers, insurance, MSB, securities broker-dealers, credit card issuers, alternate payment systems, etc.

**Course Structure**
All materials are offered through an online learning format that makes the training accessible from almost anywhere. ACAMS allows you 4 calendar weeks to complete 4 hours of coursework, which includes an assessment after each section. You will be guided using a learning path on ACAMS’ learning management system (LMS). Follow all instructions carefully.

To earn the certificate, you must pass all 4 assessments within 4 weeks. In total, the evaluation has 40 questions, 10 for each content section. The minimum passing score is 80%. Multiple attempts are allowed. When you pass, your ACAMS Certificate will be available in the learning path itself. Click to download a PDF. ACAMS will automatically add 4 CAMS Credits to your profile.

**Technical Requirements**
The course is compatible with most operating systems and browsers to make it easy to participate.

**AML Foundations** is a stepping stone for entry-level employees not yet ready for CAMS, and for business line staff, who need solid AML training now to help them add more value on the job today.

A well-designed website is essential for any organization today, with so many people consuming much of their information online. This suite of courses will teach you the skills you’ll need to build a website of your own. Building a website involves a lot more than just writing code. Before you start on that, you need to understand what you want your website to do, how it will look, who you want it to reach, and what message it should send. The first five courses in the suite will introduce you to the basics of designing a functional and attractive site, the HTML and CSS languages you’ll need to execute your design, and best practices for designing and building a website that responds intelligently to the needs of users. The capstone course will guide you through a scenario-based web design project from conception to completion. Each course features video commentary by web design professionals and interactive learning exercises that will allow you to test your knowledge of web design concepts and practice coding.

When it comes to fraud, crime does pay. Unscrupulous and fraudulent practices cost financial institutions billions of dollars each year. In fact, the Association of Certified Fraud Examiners reports that fraud and abuse cost typical US organizations 7% of revenues. This amounts to $994 billion dollars annually.

Employees in operations have access to a greater amount of information than a front-line employee. That access can provide stronger insights into potential fraud and detection.

What Is Bank Fraud?
According to Wikipedia, bank fraud “is the use of potentially illegal means to obtain money, assets, or other property owned or held by a financial institution, or to obtain money from depositors by fraudulently posing as a bank or other financial institution”.

Fraud comes in many shapes, including stealing checks, forgery, check fraud, identity theft, bank impersonation (posing as a financial institution in order to lure people into depositing funds), taking out fraudulent loans (taking out a loan, knowing that he or she will immediately file bankruptcy), and now, with the growth of the Internet, hacking.

Are Banks Required To Offer Fraud Protection?
Bank account fraud protection is addressed under Federal Reserve Regulation E, which requires banks and credit unions to provide reimbursement for certain fraud losses occurring through unauthorized electronic transfers. That said, the best way to prevent bank fraud is check fraud training for your tellers and support staff.

Frauds, scams and cons come in many forms; uninvited contact is received by email, letter, and telephone or in person making false promises to con victims out of money. There are many of these sorts of scams that change based on current situations, such as COVID. However, there are underlying principles that can be applied to protect consumers and organizations from financial losses. In the end, our neighbors and community organizations are negatively impacted financially, reputation-wise, emotionally and physically. These courses cover a wide range of fraud topics normally covered in multiple training programs.

The course format has been adjusted to allow for case studies of current, ever-changing frauds in your area and how the knowledge of frauds, scams and cons directly impacts your work as a professional and as a consumer.

This certificate focuses on how consumers and employees of financial institutions can detect and protect fraud from impacting their communities and vulnerable adults.

**Required Courses:**

- **Frauds, Scams and Cons** (2021 updated material)
- **Fighting Fraud: Top Ten Scams Targeting Our Nations Seniors** (in partnership with the United States Senate Committee on Aging)

Human resources professionals are charged with supporting the success of their organizations in ways that are ethical and socially responsible. Ethical organizations must consider questions about what is right and fair in all decision-making processes. Because HR professionals are involved in designing and enforcing policies that impact the people who work in an organization, they play an especially powerful role in shaping the ethical culture.

Each of these 1.5-hour courses explores the relationship between human resources and creating an ethical workplace. While some delve into theoretical and philosophical questions about how we can know what is right and wrong, others focus on applying theory to practice in an organizational setting.

After completing the courses in this bundle, the learner will be prepared to play an essential role in shaping the ethical culture in their workplace. Each self-paced course features an assortment of interactive exercises, videos, case studies, and assessments.

Courses included in this bundle:

Nearly half of all working adults are women, and women now make up the majority of students pursuing undergraduate and graduate degrees. Despite these indications that they have the skills and education to be leaders in the workforce, women are still underrepresented in many areas, and the persistent wage gap demonstrates that their work is often undervalued. This certificate explores both the social and psychological mechanisms that create challenges that professional women often face. Alongside commentary from women leaders, the material also provides concrete and data-driven recommendations for advancing in your career. The courses in the certificate introduce key concepts and practices that all successful business people should be familiar with, thereby serving as a general introduction to topics like leadership, management, communication, work-life balance, networking, negotiation, and body language.

Conducted by Scott Woodard

Scott Woodard is an executive and career development coach, helping leaders transform from strong to superb. He frames issues so people can take action and achieve their goals – for themselves, their organizations, their communities. He works with individuals and teams to see new patterns and create alternative ways to move forward. Together they identify small actions that lead to big changes.

Scott has conducted workshops and training to assist people in effectively showcasing their unique value. He has provided workshops for leaders in career transitions, providing the appropriate tools that demonstrate the value they bring to potential employers. Scott has also facilitated workshops and training for teams to identify their strategic goals and develop measurable outcomes.

He has coached people from all walks of life: corporate executives and elected officials challenged to transform their organizations; Boomers trying to determine the “second acts” of their lives; and new graduates starting out in their first career.

Prior to his professional coaching career, Scott enjoyed a long career as a successful policy advisor to state and local elected leaders in Colorado. He was honored to receive a German Marshall Fund Fellowship in recognition of problem-solving leadership for public sector leaders. He holds a master’s degree in Public Administration and a BA in history.

He lives in Scarborough, Maine with his wife, a psychotherapist…so he is truly in touch with his feelings.

When it comes to fraud, crime does pay. Unscrupulous and fraudulent practices cost financial institutions billions of dollars each year. In fact, the Association of Certified Fraud Examiners reports that fraud and abuse cost typical US organizations 7% of revenues. This amounts to $994 billion dollars annually.

Employees in operations have access to a greater amount of information than a front-line employee. That access can provide stronger insights into potential fraud and detection.

**What Is Bank Fraud?**

According to Wikipedia, bank fraud “is the use of potentially illegal means to obtain money, assets, or other property owned or held by a financial institution, or to obtain money from depositors by fraudulently posing as a bank or other financial institution”.

Fraud comes in many shapes, including stealing checks, forgery, check fraud, identity theft, bank impersonation (posing as a financial institution in order to lure people into depositing funds), taking out fraudulent loans (taking out a loan, knowing that he or she will immediately file bankruptcy), and now, with the growth of the Internet, hacking.

**Are Banks Required To Offer Fraud Protection?**

Bank account fraud protection is addressed under Federal Reserve Regulation E, which requires banks and credit unions to provide reimbursement for certain fraud losses occurring through unauthorized electronic transfers. That said, the best way to prevent bank fraud is check fraud training for your tellers and support staff.

**Required Courses:**

- Frauds, Scams and Cons – (2021 Update)
- Determining Your Role in Fraud Prevention
- Safeguarding Customer Information – Gramm-Leach-Bliley
- Mortgage Fraud and Ethical Behavior
A thorough review of banking, credit analysis, and legal principles that support the mortgage process, underscoring relationship sales skills in addition to the mechanics of the mortgage loan. The certificate is designed for aspiring mortgage lenders and those individuals new to the mortgage area of the bank, including mortgage loan clerks, loan processors, and closers.

**Required Courses***:

- Banking Basics Suite or Principles of Banking or Banking Fundamentals
- Appraisal Procedures
- Basics of Mortgage Processing
- Completing the HUD-1 (optional)
- Determining Your Role in Fraud Prevention
- Discovering FHA Programs
- Effective Referrals Suite or Effective Client Referrals
- Essentials of Mortgage Lending
- Ethical Issues for Bankers
- Explaining Loan Modifications
- Mitigating Potential Fraud in Your Organization
- Mortgage Customer Counseling and Prequalification
- Personal Tax Return Analysis
- Preparing the Closing Disclosure
- Preparing the Loan Estimate
- Processing and Underwriting Credit
- Processing Income and Assets
- Reviewing the Appraisal Report

* The Residential Mortgage Lender Certificate is available as a self-paced online bundled program.
This certificate has been designed as a flexible option to introduce a comprehensive review of the banking industry and mortgage lending principles and practices.

The following areas are explored to provide a powerful foundation in a career that involves mortgage lending: Federal mortgage-related laws, General information about mortgage programs and products, Mortgage loan origination activities, Ethics expected of mortgage professionals, and content related to MLO license laws and regulations.

The principles and practices covered in the certificate are a foundation that will help prepare you to become a capable and qualified mortgage professional. It will enable you to stay current with the changes in federal laws, products, guidelines, and procedures in the mortgage industry.

Effective Manager’s Toolbox Certificate*

There are a number of managerial factors that are vital in managing and leading. Becoming a better manager or leader is directly connected to how well you can master them. The Effective Manager’s Toolbox is a suite of online modules designed to give managers a head start on managing issues correctly and professionally with less stress and fewer negative organizational circumstances. The modules offer learners an explanation of the managerial mindset that all managers and leaders must adopt to succeed.

After careful consideration of the relevant and reference managerial and leadership factors, including such topics as dealing with direct reports, solving problems, planning and budgeting, handling conflict, and others, learners are given a series of video-based scenarios and asked to consider how they would handle the challenges presented for the most optimal results.

Upon completion, learners are given a summary of what they’ve learned for quick reference while at work.

Learning Outcomes

- Inhabit the managerial mindset
- Understand what employees want from their jobs
- Understand how managers lead
- Recognize the components of a manager’s job including enforcing policies and procedures, controlling expenses, dealing with subordinates and superiors, planning and budgeting, recruiting and developing talent, and solving problems
- Implement the qualities that make an effective leader
- Address real-world managerial problems in customer service, cost budgeting, cost cutting, and vendor relations

* The Effective Manager’s Toolbox Certificate is only available as a self-paced online bundled program.

About CAMS
The Certified Anti-Money Laundering Specialist (CAMS) Certification is the global benchmark of expertise for Anti-Financial Crime professionals. Able to scale for any size organization, CAMS is the smart choice for global compliance teams wanting to develop their people.

About the Association of Certified Anti-Money Laundering Specialists
ACAMS is the largest international membership organization dedicated to advancing the professional knowledge, skills and experience of those dedicated to the detection and prevention of money laundering around the world, and to promote the development and implementation of sound anti-money laundering policies and procedures. ACAMS achieves its mission through:
• Promoting international standards for the detection and prevention of money laundering and terrorist financing;
• Educating professionals in private and government organizations about these standards and the strategies and practices required to meet them;
• Certifying the achievements of its members; and
• Providing networking platforms through which AML/CFT professionals can collaborate with their peers throughout the world.
In particular, ACAMS seeks to:
• Help AML professionals with career enhancement through cutting-edge education, certification and training. ACAMS acts as a forum where professionals can exchange strategies and ideas.
• Assist practitioners in developing, implementing and upholding proven, sound AML practices and procedures.
• Help financial and non-financial institutions identify and locate Certified Anti-Money Laundering Specialists (CAMS) designated individuals in the rapidly expanding AML field.

About the CAMS Designation
As money laundering and terrorist financing threaten financial and non-financial institutions and societies as a whole, the challenge and the need to develop experts in preventing and detecting financial crime intensifies. Internationally-recognized, the CAMS credential identifies those who earn it as possessing specialized AML knowledge. AML professionals who earn the CAMS designation position themselves to be leaders in the industry and valuable assets to their organizations.
The AEM®/CEM® Prep Course was designed in partnership with the International Association of Emergency Managers (IAEM). This course is designed for emergency management professionals seeking the AEM or CEM credential. The course walks learners through submitting an application and offers essay writing tips. Primarily, the course reviews key terms and concepts that may appear on the AEM/CEM exam. Learners can check their understanding throughout the course with interactive games, review checkpoints, and exams. Certified Emergency Managers provide expert commentary, using their knowledge and experience to guide learners through the course. Plus, learners can gauge their exam readiness with two full-length practice exams, which mirror the real AEM/CEM exam.

Please note that this course cannot be used to meet the AEM/CEM emergency management or general management training

Learning Outcomes:

- Assess eligibility for either credential and begin preparing an application
- Solidify foundational knowledge of emergency management concepts
- Recognize how laws and authorities shape emergency management
- Identify key activities that occur during each phase of emergency management
- Explain the components of emergency program management
This intermediate-level course is designed to prepare learners for the Project Management Institute®’s Agile Certified Practitioner (PMI-ACP)® exam. At the core of the Bank Marketing Diploma is in-depth course work on marketing financial services, along with related topics such as event-based selling and successful sales campaigns. Courses on financial and business planning provide essential business skills that experienced bank marketers have identified as critical to the function. Supporting the marketing-specific core are courses in banking fundamentals, economics and business ethics.

The Bank Marketing Diploma is an ideal program for bank marketers who are relatively new to the profession. It also represents an excellent opportunity for bankers outside the marketing area who desire a solid background in marketing to support their current responsibilities (e.g., branch managers).

Required Courses:

- Balancing Priorities
- Ethical Issues in the Workplace
- Handling Workplace Conflict
- Meetings that Work
- Marketing or Certificate in Digital Marketing or All Three: Marketing in Banking, Marketing Management, Marketing Planning
- Principles of Banking
- Successful Sales Campaigns

Bank operations are the infrastructure of the organization. Individuals who work in operations across the bank are responsible for ensuring that the daily workflow is smooth and efficient. With views toward operations efficiency and customer expectations, bank operations personnel continually review current methods and procedures and often recommend process improvements and innovations. In the course of their duties, operations personnel interact with staff throughout the bank, from data processing to customer contact areas. Supervisors and managers in operations are responsible for seeing that their areas are staffed adequately with well-trained personnel who understand banking processes, process improvement methods and project management.

This curriculum provides a solid grounding in banking fundamentals, which is essential to new or aspiring operations managers or supervisors. Critical knowledge areas such as accounting, legal and regulatory aspects of banking, general bank operations, payment systems, and supervision are central to the program. The diploma is an ideal foundation for bankers new to the operations area.

Consumer lenders provide service to customers and prospective customers through various credit products and services. Consumer lenders need to understand the consumer lending process from developing and taking loan applications to collection and recovery. Consumer lenders participate in the bank’s sales and development activities. Because meeting sales objective is a critical responsibility of the position, consumer lenders often identify and follow through with cross-selling opportunities. To be successful, consumer lenders must stay current on all trends, issues and procedures affecting the consumer lending function, especially changing rules and regulations. They also need to develop solid relationship management skills.

This Consumer Lending Diploma reflects a balanced treatment of the knowledge and skill requirements of a typical consumer lender. Complementing consumer-lending coursework are topics in general banking, accounting and credit analysis, and legal and regulatory compliance. Approaches to relationship management and relationship selling are also addressed. In addition, emphasis is placed on practical business skills, such as time management, effective and professional speaking and writing skills.

**Required Courses:**

- Accounting, Financial or General
- Consumer Lending or Consumer Lending Certificate
- Effective Referrals Suite
- Ethics in the Workplace
- Introduction to Analyzing Financial Statements or Personal Tax Return Analysis
- Legal Foundations in Banking
- Principles of Banking
- Sales Essentials Certificate
- Verbal Communication or Certificate in Business Communication may be applied as a requirement for Verbal or Written Communication
- Written Communication or Certificate in Business Communication may be applied as a requirement for Verbal or Written Communication
This diploma provides students with industry standards and important knowledge used to analyze companies and their ability to repay loans.

Mortgage lending is an important function of banks in meeting the needs of their communities. Depending on the institution, mortgage lenders may be involved with many different aspects of the mortgage lending and servicing function. To be successful, mortgage lenders must have a solid understanding of the mortgage lending process, including the methods and procedures used to make loans to individuals for the purchase of a residence, as well as loans to builders and real estate developers.

Mortgage lending personnel provide service to customers and prospective customer, and often participate in business development activities. In addition to developing an understanding of the mortgage lending process, credit analysis, finance, real estate law, and the secondary market, mortgage lenders must manage business relationships and keep current with changes in related government regulations. This mortgage lending diploma requires a good understanding of banking, accounting, credit analysis, and legal principles. The courses in the diploma program provide a solid foundation for learning the mortgage lending business, including aspects of underwriting, processing and servicing, and approaches to profiling mortgage prospects. The diploma is well suited to aspiring mortgage lenders and to those individuals relatively new to the mortgage area of the bank, including mortgage loan clerks, loan processors and closers.

Required courses:

- Business Math
- Certificate in Business Communication
- Creative Problem Solving
- Fundamentals of Real Estate Appraisal
- Leading and Managing Change
